Sir:

Applicant hereby submits the following declaration:

SUPPLEMENTAL DECLARATION UNDER 37 C.F.R. 1.175

In addition to the declarations made March 28, 1997, I hereby declare as follows:

My residence is my mailing address, namely:
6009 Chapel Drive
Minneapolis, MN 55439

The errors relied upon are:

- 1) "the claims are too narrow in scope."

For example, claim 1 includes a limitation that the second cable is disposed the entire row of loops, however the cable does not necessarily need to be disposed through the entire row of loops.

GROUP 3635

2) "The original attorney failed to appreciate the full scope of the invention."

For example, Claims 2-48 more fully identify and define the invention in language distinct from that contained in claim 1 of the issued patent.

The attorney failed to recognize that the present invention also has an inventive method. The prior attorney only recognized the device.

"Applicant believes the original patent to be partly inoperative or invalid by reason of the patentee claiming more or less than patentee had the right to claim in the patent." For example, claim 1 lacked antecedent basis for "the entire row".

All errors which are being corrected in the reissue application up to the time of filing this declaration arose without any deceptive intention on the part of the applicant."
